

I think you guys did a great thing to make a garden for your school. I did some meaningful things for my teachers and classmates too. I built a website to the class. The teachers could upload documents and share them with classmates. Before I did this, usually, we shared the documents by public email, everything looked pretty well but some features were limited for us. Every day, we received SPAM Email. The document couldn't be larger than 20 Mega Bytes. Everyone could edit the document even delete it. So I decided to build it. When I had done all these things, I felt pleasure and I was proud of myself that I could solve many problems on my own.

I think you guys did a great thing to make a garden for your school. I went to the library to be a volunteer with my class.

I helped others to find their favourite books and I told stories to kids and shared my favourite books with them. Because I like to help people who are in trouble and I can also read books there and increase knowledge. There were many other things to do, for example, I cleaned the floor and windows and laid the table.

I was happy about it and I'm proud of myself.

I think you guys did a great thing to make a garden for your school. I taught Lingling basketball with Betty. It was the meaningful thing for my classmates.

One day I played basketball with Betty. Lingling was amazed at how skillful we

were. She decided to learn basketball from us. We taught her every day after school. Gradually, she mastered the skills of playing basketball, and had confidence enough to face the basketball exam.

We were very happy and it's our honor to help others.

I think you guys did a great thing to make a garden for your school. Betty and I won two gold medals in the sports meeting last week. Betty and I trained hard and ran around the school every day in our free time until the sky turned dark. In teacher's direction, we did a lot of exercise before the competition began to warm up our bodies. During the competition, when we wanted to give up half way, it was the class honor what gave us courage and the teacher who gave us encouragement. I was in a best condition and used the skills from my friends. At last, I got the first prize in the competition and I felt really happy and thankful to my teachers and friends. At that moment, my tears ran down my face and I thought that I did a meaningful thing for my class, when I gave the gold medal to my teacher, she smiled beautifully and I deeply admired my effort.

I think you guys did a great thing to make a garden for your school. And I did a great thing with my best friends for our teacher. That was a summer and our teacher's birthday was coming. We had a plan for her birthday party. We made a fruit cake and brought some gift for our teacher. And on that day, my

classmate and I gave her a big surprise. We shared this thing with her parents and we all felt so happy.

I think you guys did a great thing to make a garden for your school. We took part in the sport-meeting for our class. I think it's meaningful to enter the match. I joined in the running race. Before this, I didn't take any match. This time, I decided to challenge myself. But finally I got the fifth, I shared the message with parents. Through this thing, I feel more confident. I am proud of myself.

董博文

I think you guys did a great thing to make a garden for your school. I cleaned the whole classroom with my best friend. I cleaned the classroom on the first day of the term.

When we finished the first day of school, I decided to clean the classroom, because I thought it was too dirty to study. I cleaned the floor, the windows, the shelves and lay the desks and chairs. My friend also helped me to do a lot of things. I wanted to make a clean environment for our classmates and teachers.

The second day, my classmates were surprised and I felt happy. I think it is meaningful for us. And my classmates are very proud of me.
